S-LINE al detalle,

- Nuevo mecanismo de Guía, reduce considerablemente la resistencia durante los movimientos de deslizamiento.
- Mejor sincronización en las guías, apertura y cierre al mismo tiempo y a la misma velocidad.
- Incremento de la capacidad de carga dinámica hasta 40 Kg.

Cajón S-Line

S-LINE al detalle,

- Mayor capacidad. (gracias a que sus laterales son de tan solo 13mm.).
- Soporta hasta 40 kg. de carga dinámica.
- Un cajón que permite un ajuste frontal y trasero.
- Guía silenciosa (tan sólo XX db), y movimiento sincronizado, aportando mayor firmeza y menor holgura al cajón.
- Posibilidad de altura de cajón entre 89,121 y 185 mm.
- Disponibilidad de acabado gris o blanco
- Posibilidad de frentes de madera, frentes metálicos para cajón interior o bien frentes con inserción de cristal frontal y lateral.
